

In the Beginning

Genesis Part 2: The Origins of Life

Young or Old Earth?

Creation or Evolution?

Were Adam and Eve Real People?

In the Beginning

Genesis Part 2: The Origins of Life

The Creation of Adam, Michelangelo, ca. 1512 AD

Discussion:

1. What difference does it make for human value and human rights if we were created by a personal God versus impersonal forces of evolution?
2. Evolutionists believe that God is not necessary for humans to choose moral behavior. Instead, reason itself would lead us to behave morally toward one another. What do you think?
3. If an intelligence guided evolution, but there is no God, what are the other options?
